CoW Shed for Composable CoW Audit

This document presents the findings of a smart contract audit conducted by Côme du Crest for Gnosis Ltd.

Scope

The scope includes selected contracts within `cowdao-grants/cow-shed` as of commit `0xa696776`.

The contracts in scope are:

- `src/LibCowOrder.sol`: containing utility functions to compute the EIP 712 hash of a GPv2 order
- `src/ERC1271Forwarder.sol`: which exposes the isValidSignature() function that decodes the signature into a GPv2 order and composableCoW struct. It verifies the hash matches the order.
- `src/COWShedForComposableCoW.sol`: inherits both the base COWShed as well as ERC1271Forwarder

Context

The code was already audited as of commit `0xbbfba8c`. The diff with the previous audited commit can be found `here`.

The pull request adding the scoped contracts perfectly explains the context behind them: `PR#53`.

Status

No issues have been found.

The report has been sent to the core developer.

Legal Information And Disclaimer

1. This report is based solely on the information provided by CoW (the "Company"), with the assumption that the information provided to Gnosis is authentic, accurate, complete, and not misleading as of the date of this report. Gnosis has not conducted any independent enquiries, investigations or due diligence in respect of the Company, its business or its operations.
2. Changes to the information contained in the documents, repositories and any other materials referenced in this report might affect or change the analysis and conclusions presented. Gnosis is not responsible for monitoring, nor will we be aware of, any future additions, modifications, or deletions to the audited code. As such, Gnosis does not assume any responsibility to update any information, content or data contained in this report following the date of its publication.
3. This report does not address, nor should it be interpreted as addressing, any regulatory, tax or legal matters, including but not limited to: tax treatment, tax consequences, levies, duties, data privacy, data protection laws, issues relating to the licensing of information technology, intellectual property, money laundering and countering the financing of terrorism, or any other legal restrictions or prohibitions. Gnosis disclaims any liability for omissions or errors in the findings or conclusions presented in this report.
4. The views expressed in this report are solely our views regarding the specific issues discussed within this report. This report is not intended to be exhaustive, nor should it be construed as an assurance, guarantee or warranty that the code is free from bugs, vulnerabilities, defects or deficiencies. Different use cases may carry different risks, and integration with third-party applications may introduce additional risks.
5. This report is provided for informational purposes only and should not be used as the basis for making investment or financial decisions. This report does not constitute investment research and should not be viewed as an invitation, recommendation, solicitation or offer to subscribe for or purchase any securities, investments, products or services. Gnosis is not a financial advisor, and this report does not constitute financial or investment advice.
6. The statements in this report should be considered as a whole, and no individual statement should be extracted or referenced independently.
7. To the fullest extent permitted by applicable laws, Gnosis disclaims any and all other liability, whether in contract, tort, or otherwise, that may arise from this report or the use thereof.
